## The 3<sup>rd</sup> International Conference on Geosynthetics and Environmental Engineering

## CALL FOR PAPERS

- **T1: Geosynthetic Applications and Sustainability**

Fundamentals of Geosynthetic Engineering  
Geotechnical and Geosynthetic Engineering  
Geosynthetics and Applications

- **T2: Civil and Structural Engineering**

Civil Engineering Technology  
Civil Engineering Surveying  
Civil Engineering Machines

- **T3: Environmental Engineering and Science**

Environmental protection materials  
Environmental Safety and Health  
Environmental Planning and Assessment

## PUBLICATION & INDEXING

Submission will be rigorously reviewed, and should clearly make the case for a documented improvement over the existing state-of-the-arts. All accepted and presented papers will be published in the **conference proceedings** and submitted for major indexing services like **EI-Compendex**, **SCOPUS**.

The 3<sup>rd</sup> International Conference on Geosynthetics and Environmental Engineering (ICGEE 2025) aims to connect academia with industry by transforming scientific advancements into practical applications within the fields of geosynthetics and environmental engineering. ICGEE 2025 will continue to foster innovative research and applications across a wide array of topics, including geosynthetic applications, sustainability, civil and structural engineering, and environmental science.

## COMMITTEES

### Conference Chairs :

Prof. Han-Yong Jeon, Inha University

Dr. George R. Koerner, Director of the Geosynthetic Institute

### Conference Co-Chair:

Prof. Nelson N.S. CHOU, National Taiwan University

### Program Committee Chair:

Assoc. Prof. Haoliang Wu, Sun Yat-sen University

### Technical Program Committee Chairs:

Prof. Sabatino Cuomo, University of Salerno
